REPORT

No: 2151-Volunteers

November 30, 2006

To: Richard Marovich - Putah Creek Streamkeeper

A wealth of volunteers organized by Dawn Calciano (Putah Creek Council) have helped with various projects including the 2006-07 realignment of the Dry Creek confluence. The images speak for themselves as volunteers helped monitor aquatic insect larvae, relocate isolated fish, plant the banks of the Design Channel, monitor salmon spawning, plant willows, and re-seed terraced restoration sites.
