SCOPE OF SERVICES

Watercraft Seal Application and Removal Services:

Contractor management and staff must be properly trained by Solano County Water Agency (Agency) staff and have successfully completed watercraft seal application and removal training using the Watercraft Inspection and Decontamination (WID) system from a certified Agency instructor. Completion of these requirements is mandatory to be eligible for compensation under this contract.

All participating staff must either submit a W-9 to the Agency in order to receive compensation directly from the Agency, or the Contractor shall compensate participating employees directly and provide documentation to the Agency verifying that each employee has been compensated in accordance with the established rates.

Contractor (Concessionaire) staff shall conduct watercraft entrance and exit inspections, apply and remove seals, and complete all required documentation using the Agency-administered electronic Watercraft Inspection and Decontamination (WID) database. The Contractor shall implement all inspection and seal application procedures with honesty, accuracy, and integrity. Only properly completed WID entries will be considered valid for compensation and will be tracked by the Agency through the WID database.

For each inspection, seal application, or seal removal, staff must accurately record the full vessel registration number (CF number) and the complete seven-digit identification code for each seal applied to or removed from the watercraft. Entries that do not include both the full registration number and the complete seven-digit seal code will be considered incomplete and will not be eligible for incentive-based compensation.

Watercraft that have been decontaminated by contractor staff and launch immediately must be documented and entered into the WID correctly, however, a seal number is not required in this circumstance.

If a watercraft is found to have a tampered seal, the watercraft shall not be allowed to launch unless decontaminated and the watercraft information including the tampered seal number must be recorded in the WID system. Additionally, SCWA staff shall be notified immediately, so that they can add the watercraft to the WID system in a timely manner. To support this program, SCWA has implemented a reward system for tampered seals found during inspections.

The fee schedule for watercraft seal application and removal as well as the reward for finding tampered seals is provided in Exhibit B. After a period of six (6) months, the Contractor and Solano County Water Agency shall meet to evaluate program performance, including seal application rates, compensation structure, and staffing distribution.

EXHIBIT B

RATE OF COMPENSATION

The rate of compensation to be issued for seal applications is specified in Table 1 below.

Table 1 Watercraft Seal Application and Removal Rate of Compensation	
<p>Staff must save their properly completed watercraft seal application or removal information to the WID database following requirements presented in Exhibit A to be eligible for the cash incentive.</p> <p>SCWA shall remit the staff member portion of the seal application incentive to the staff members individually.</p> <p>Should the Contractor elect to have staff payments made to the Contractor, the Contractor shall distribute these funds as deemed appropriate amongst staff based on hours worked, number of seals applied and removed, or other metric as deemed acceptable by the Agency. The Contractor must submit proof of distribution of these funds, as well as justification for division of these funds to staff, before any additional incentive payments are made.</p>	<p>Per Seal Applied or Removed: \$5.00 - Contractor \$5.00 - Staff member</p>
<p>As an incentive for Staff members to examine seals more thoroughly and identify watercraft with tampered seals, SCWA has implemented a \$40 incentive for each watercraft found with a tampered seal. In order to be valid, the seal must be retained and submitted to SCWA staff. The following information must be recorded:</p> <ul style="list-style-type: none">• Staff member• CF number• Date and time of incident	<p>Per Tampered Seal: \$20 – Contractor \$20 – Staff member</p>
